CONFERENCES AND
EXHIBITIONS PER YEAR**

**3 000
PARTICIPANTS**
at these events

SER EVENTS

The French Renewable Energy industries Association organizes numerous events every year that bring together renewable energy figures.

- **The annual conference of the SER** at the UNESCO House (Paris)
- **National Wind Power conference** which happens every year in a different region
- **National Biomass conference**
- **National Renewable Marine Energy sessions**
- **National PV conference**
- and others.

Participating in these events are ministers, representatives of the administration, regional elected officials, presidents of large energy companies, and European Commission officials, among others.

The SER is also a partner of various exhibitions including:

- **Flam'expo**, the premier exhibition of wood stoves and fireplaces in France
- **Wind Europe onshore and offshore**
- **Intersolar Munich**
- **WFES Abu-Dhabi**
- **Solarex Istanbul**
- **French Jordan RE Forum**
- **RE Exhibition Casablanca**
- **Brazil Solar Power**
- **Regional conference in RE - Southern Africa**
- and others.

2015 - WFES - European Commission high level workshop, Abu Dhabi, UAE
2016 - SER annual conference, Paris, France
2015 - RE-energising the Future, Paris, France
2013 - Windustry France Business meetings, Le Havre, France

ALL ABOUT THE FRENCH RENEWABLE ENERGY INDUSTRIES ASSOCIATION

BOARDS OF DIRECTORS

January 2017

PRESIDENT

Jean-Louis BAL

HONORARY PRESIDENT

André ANTOLINI

EXECUTIVE COMMITTEE

Antoine CAHUZAC, Vice-president, EDF ENERGIES NOUVELLES

Frédéric COIRIER, Treasurer, POUJOLAT

Xavier DAVAL, Vice-president and President SER-SOLER, the PV branch, KILOWATTSOL

Gwénaëlle HUET, Vice-president and President of the wind energy branch, ENGIE

Cyril LE PICARD, Vice-president and President of the bioenergy branch, UCFE

MEMBERS OF THE BOARD

Michel ANThERIEU, Co-president of the wood and stove branch, GROUPE NOVADEV

Elisabeth AYRAULT, COMPAGNIE NATIONALE DU RHONE

Jérôme BILLEREY, President of the islands and remote territories, QUADRAN

Christian CARDONNEL, President of RE and buildings branch, CARDONNEL INGENIERIE

Alain CASTAGNOL, Co-president of the wood and stove branch, TOTEM FIRE

Arnaud CHAPERON, TOTAL

Hubert de CHEFDEBIEN, President of waste to energy branch, CNIM

Filippo CIMITAN, SIEMENS

Nicolas COUDERC, EDF ENERGIES NOUVELLES

Sébastien COUZY, TERRAWATT

Michel CREMIEUX, VOLTALIA

Michèle CYNA, President of the geothermal branch, GINGER BURGEAP

Paul ELFASSI, BCTG AVOCATS

Jean-Charles GALLAND, President of hydroelectricity branch, EDF

Kristell GUIZOUARN, AVRIL

Dominique KIEFFER, DALKIA

Sylvain LEGRAND, President of the CSP branch, SUNCNIM

Frédéric LE LIDEC, President of the marine renewable energy branch, DCNS

Jérôme PECRESSE, GE RENEWABLE ENERGY

Anne PENALBA, FRANCE HYDRO ELECTRICITE

Peter SCHUSTER, ENERCON

Jean-Baptiste SEJOURNÉ, ENGIE

PRIMARY MISSIONS OF THE SER

- ▶ Develop the share of renewable energy in France's energy production and to promote the interests of the French private sector.
- ▶ Actively participate in the creation of legislative and regulatory texts. In constant contact with political authorities, ministerial cabinets, and the administration, the SER follows, from day-to-day, the discussions and work of the Assemblée Nationale (national assembly) and the Sénat (senate) and informs its members.
- ▶ Support its members and facilitate their development in France and abroad through its brands Windustry France, France Solar Industry, and French Fire. Through the organization of company missions, country information meetings, BtoB meetings, conferences, seminars, and forums in partnership with local authorities, the SER also boasts its experience of implementing development policy for renewable energy projects.

- ▶ SER is leading an interministerial initiative aiming at increasing the development of french renewable energy companies in promising market. In addition to RE club created in some French Embassies, the first one has been inaugurated in May 2016, the SER is also working with financial institutions to implement new tools in warranty and financing. Manage the Flamme Verte quality certification for domestic wood heating appliances with the support of the ADEME.

FRENCH RENEWABLE ENERGY INDUSTRIES ASSOCIATION

- ▶ Promote the interests of the industrial and professional figures of the renewable energy industry to public authorities, Parliament, and all entities in charge of energy, industry, employment, and research.
- ▶ Meet with and advise the ministers and their cabinets, representatives of the administration, decentralized services of the State, parliamentarians, regional presidents, mayors, and the media. It is also highly active in following the preparation of legislative and regulatory texts.
- ▶ Support its members in international markets that are a priority for them. A privileged contact of French and international organizations active in the promotion of the industry worldwide, it acts to facilitate and catalyze bilateral partnerships and investments.
- ▶ Produce analysis, propositions, and initiatives that take into account the interests of all our sectors as well as each member.

Ségolène ROYAL, French Minister for Ecology, Energy and Sea Cooperation agreement between SER and AFD Group

- ▶ Its twenty one permanent employees work with members in committees and work groups dedicated to hearing the expectations of members, drafting strong proposals with them, and presenting political decision-makers and the government with ideas and projects that are both new and solid, that will allow our sectors to advance. The SER is in charge of the international component of the French RE industry plan launched by the government.
- ▶ Several symposiums and conferences, an annual conference as well as conferences by sectors, allow the SER to present the proposals of its members and to exchange with decision-makers.

8 RE SECTORS

- Wind power
- Bioenergy-biomass
- Domestic wood fuel
- Biofuels, biogas
- Solar photovoltaics, solar thermal, solar thermodynamic
- Hydroelectricity
- Renewable marine energy
- Geothermal

5 INTERNATIONAL COOPERATION AGREEMENT

AB SOLAR and AB EOLICA (Brazil), EDAMA (Jordan), AMISOL (Marocco), Renewable UK (United Kingdom)

15 MEMBERSHIPS OF THE SER IN EXTERNAL ASSOCIATIONS

among them Wind Europe, Solar Power Europe, AEBIOM, Ocean Energy Europe

FOUNDING MEMBER OF THE GLOBAL SOLAR COUNCIL
